Education and Qualifications

September 2025 – Current

Master of Science in Robotics at EPFL, minor in Data science

August 2023 – July 2024

Exchange year at Aalto University in Helsinki

September 2022 – July 2025

EPFL Bachelor's Degree in Microengineering, 5.00/6

September 2019 – July 2022

Lycée Fenelon Notre Dame de La Rochelle,

Baccalaureate Speciality Mathematics, Physics-Chemistry, Digital and Computer Sciences – European Section, with honors and an average of 17.03/20

Project

October 2025 – June 2026

Robotics competition of [Robopoly](#), EPFL

Winner of the robotics competition of Robopoly at EPFL with an autonomous robot based solely on camera vision, performing line tracking, corridor tracking and target shooting

March 2024 – Current

Sola Project MPPT and Power Circuit

Responsible for the design and assembly of the power circuit PCB and in particular the maximum power point tracker for a solar aircraft as part of the [Sola Project Association](#).

September 2025 – December 2025

Copycat Portfolios EPFL

Group project for statistical analysis of financial data, choice of investment strategy and writing of a demonstration website: [Copycat Portfolios – Do political trades pay off?](#)

General Mathematics Competition, 2022

Participation in the general mathematics competition

Physics Competition, Lions club, 2022

Winner of the physics competition

Experience

September 2023 – Current

Several Tutoring and TA experiences in Mathematics, Physics and Electronics ([Apprenons ensemble](#), EPFL)

Tutor of several students at the elementary, gymnasium and apprenticeship levels.

TA in the Electrical and Electronic Systems Course and the Mechanical Physics Course

April 2022

Observation Internship at [Shart Robotics](#)

Observation internship to discover all aspects of a robotics company in R&D.

September 2020 – July 2022

Programming and Mathematics Courses at *Lycée Fenelon Notre Dame, La Rochelle*

Introducing programming, particularly Python, as well as applications of mathematics in code, to high school students.

Skills

Technical skills:

Mobile robotics, computer vision, image processing, embedded systems, PCB design,
Data analysis, machine learning, deep learning, FPV drone

Programming:

Python, C/C++, OpenCV, NumPy, Pandas, Git, PyTorch, Tensorflow

Tools:

MATLAB, Webots, Catia, Kicad, Ltspice, Codex

Electronics:

Raspberry Pi, Arduino, sensors, batteries, motors

Languages

French – Mother tongue

Lebanese – Mother tongue

English – C2

Spanish – B2

Extra-professional activities

Chief Scout: *September 2021 – Current*

Member of the association of lyrical evenings of Sanxay: *2017 – Present*

Sport: Handball, Sailing, Trumpet, Guitar, Judo (brown belt)

Personal situation

21 years old, single, French and Lebanese nationality
